

OUR 3 BOX SYSTEM

The goal of this system is to provide a superior quality, competitively priced RTA product in all style and colour options, that remains easy to sell, and easy to assemble for first time users.

By using our unique user-friendly A-B-C 3 box system Euro-Rite is able to offer a flexible solution for retailers to stock a multitude of door styles and cabinet choices, without tying up large amounts of space and dollars in inventory, unlike traditional 2 box inventory systems.

Quite simply each cabinet consist of three parts:

(A) Interiors, white only (cabinet cross members, drawer boxes, shelves, rails and cabinet hardware).

(B) Side gables—all colour-matched to door style chosen.

(C) Doors, drawers and backboard.

3 BOX ADVANTAGE

- A super professional look! All cabinets include colour-matched gables and verticals.
- No more replacement gable design headaches or throw-away gables.
- Eliminates replacement gable location challenges during assembly.
- Unique user-friendly labeling for quick product identification.
- Lighter easy-to-handle packaging.
- It just makes sense!

ENTERTAINMENT

Since I started making cabinets in my garage in the very early 1980's, I have always taken great pride in offering a high quality product at an affordable price. As my garage business evolved into Euro-Rite Cabinets, we adopted a corporate mission statement that became the foundation of everything we have done from that day forward. To me, this mission statement is important as it reflects who we are and what we do.
